BOB PROCTOR'S GOAL ACHIEVER SEMINAR

When you finish this life-changing seminar, you will have a thorough understanding of how each element of you works to bring about the results you are getting in your life. You will know and understand exactly what to do to transform your life into anything that you choose.

- Work with the **Law of Attraction** to achieve your goals in the easiest way possible.
- **Visualize** to move your dreams from thoughts into reality.
- **Bridge the gap** between where you presently are and where you want to be.
- Bring your body, mind and spirit together to **realise your dreams**.
- **Alter old conditioning** that is holding you back.
- Select and prioritise **your goals** in the most efficient way.
- Develop a plan that, when followed daily, will guarantee **that you achieve your goals**.

I've been to many seminars and read a lot of books on effective goal setting and achieving. For the first time ever I've come home bouncing out of my skin. Struggled to get to sleep after the workshop and still on a high a week later. Better still, I'm achieving results on a level like never before. *(Chris Baker, Business Coach)*

This seminar helped me identify where I have been stuck in my business and personal life and I feel that I have broken through those barriers during the course of the day. Now I can move forward more confident that I will reach my goals. *(Nicola Grace, Spa-Trek Organic Clinic)*

I found the seminar very enlightening. I now realise the importance of teaching my children these principles. Thank you. *(Sharon Stevenson, full time Mum)*

I found Rosemary to be a very REAL person, very genuine, easy to listen to, kept us interested and wanting to hear more. The day didn't drag on as a lot of seminars do. *(Lisa Redmond)*

Jon has the ability to present concepts in a most logical and straightforward manner, with easy-to-understand examples, that makes them so clear and acceptable to his listeners. A truly gifted and eloquent speaker *(Amy Tan)*
